

Shipment Waiver Form for Alternate Shipping Days

(Our standard shipping policy allows for shipping of products from our facility Monday through Wednesday only)

This document certifies that I agree to not hold ReachBio Research Labs (ReachBio LLC©) responsible for any product damage (product quality, viability or compromise of product integrity) that may occur through means out of ReachBio's control. This includes potential delay in receipt of product shipment due to shipping/logistical problems such as missed flights, weather related delays or other delays. ReachBio ships products as FCA origin.

Once the shipment leaves ReachBio's facility, ReachBio is not to be held accountable for any such delays and problems that may arise as outlined above.

Shipments are typically sent via FedEx Priority Overnight for dry ice (e.g. primary cells) product shipments or Standard Overnight for our ColonyGEL© line of products within the USA (Alaska and Hawaii not included). Products typically arrive the next day (within 24 hours) via shipment from our facility in Seattle.

- Dry ice shipments maintain a temperature of ~-80C and are not recommended for transit > 36 hours.
- Dry shipper (vessels containing liquid nitrogen with cell vials in vapour phase) maintain a temperature of ~150C for transit time of 4-14 days depending on the type of shipper used.

Purchaser hereby signifies his or her acceptance of the foregoing terms and conditions by signing below:
